FREQUENTLY ASKED QUESTIONS

Q: Other beginners waxing courses are only one day long. Why is yours two days?

A: To put it simply: we don't think one day of training is enough. Our in-depth course will equip you with a thorough grounding in all aspects of waxing, both theoretical and practical, laying the foundations for a successful and profitable hair removal career.

Q: What is the difference between strip wax and peelable wax?

A: Strip wax is also known as soft or warm wax. It is the most popular method of temporary hair removal in UK salons. Warm, sticky wax is applied to the body with a spatula or roller and then removed with a paper or cloth strip, taking unwanted hair with it. Peelable wax is also known as non-strip wax, hard wax, film wax or hot wax. It differs from soft wax in that it is applied in thicker layers and actually sets on the skin, 'shrink wrapping' around hair as it dries. The hardened wax is then removed by hand, taking the encapsulated hair with it. Strip wax and peelable wax are better suited to different areas of the face and body. To ensure you are fully equipped to offer your clients the very best and most comfortable waxing service possible, both methods are taught on our course.

Q: Do I need to bring anything with me?

A: Please bring a notepad and pen with you. As this is a practical class, you will need to be dressed appropriately in a salon uniform or similar professional workwear (trousers and a t-shirt or polo shirt are fine). Light refreshments and all waxing supplies needed for the duration of training are provided by us. Lunch is not included – we recommend bringing food with you, as options for nearby eateries are limited.

Q: Do you issue a certificate and is your training recognised by insurance providers?

A: Yes, upon successful completion of all assessment activities you will be issued with certificates of achievement in face, body and female intimate waxing. Treatment and public liability insurance is then available from several UK providers, including the Guild of Beauty Therapists.

Q: Does your Beginners Bootcamp cover male waxing?

A: This particular course concentrates on teaching you how to wax the most requested body parts for female clients. However, by the end of the two days you will be able to carry out basic body waxing for both male and female clients (after all, underarms are underarms!).

Q: Does your Beginners Bootcamp include intimate waxing?

A: Intimate waxing techniques for female clients are covered on this course. Once qualified, separate training in male intimate waxing is then also available from us if desired.

Q: What other training do you offer?

A: Axiom Wax Academy are proud to offer a variety of post-graduate classes. Once you have attained your basic qualification, you are then welcome to attend any of our popular advanced workshops with the benefit of an exclusive 20% discount. See www.learnmalewaxing.co.uk for full details of our trail-blazing training programme.

Q: I can't make these dates, are there any other classes planned?

A: We run group workshops throughout the UK on a regular basis and private training is also available. Please see www.learnmalewaxing.co.uk or call 0345 680 2467 for more information.
